

## A Patch of Darkness: Sierra Fox

All it takes is one weak seam for everything to fall apart. Sierra Fox, Book 1 In a perfect world, Sierra Fox would have stayed away from the Council she left years ago. But in this world where spirits have the right to walk among the living it's her job to round up troublesome spooks and bring them before that very same Council. Though her desk is piled high with open cases, she can't resist an anonymous summons to a mysterious late-night meeting with a bunch of other hunters, each of whom seems to have a unique specialty. The news is dire: something is tearing at the fabric of the universe. If the hunters can't find who or why in time, something's going to give in a very messy way. As current cases, family secrets, new clues and her tangled love life slowly wind themselves into an impossible knot, Sierra finds herself the target of a power-sucking duo intent on stealing her mojo. And realizing she holds the key to the last hope of sealing the widening rift. Warning: Spook catching: may contain traces of ectoplasm and otherworldly nasties. Not recommended for those with allergies to ghosts, demons, and with boyfriends who think your power is theirs. While reading, avoid dark patches and stay to the light.
