

STEPnotes™ is an unrivaled process for taking progress notes that ensures efficiency, effectiveness, and ethics. Dr. Rhonda Sutton developed this process after realizing that progress notes were a point of concern for her and many of her colleagues in mental health. How does a therapist take what happens in the session and put it into words? This book is a way for counselors to conceptualize their therapy sessions with their clients. The STEPnotes™ structure aids in the therapeutic process and provides a professional format for other administrative functions. It is the hope that with this book mental health providers will learn better STEPs™ for taking progress notes.
