

Covenant: When Dragons Die, Volume 2 (The Ahmbren Chronicles)

Covenant: Volume II of When Dragons Die I offer you freedom from gods. - The Vampire Count Nine years after the fall of the God-King, the gods have resumed their great game for mortal hearts and minds. The vampire contagion has spread throughout the Nine Realms. Now, in the depths of the infected lands, a dark god forges a Covenant that will make the vampire threat more deadly than ever before. The paladin Arda has joined the war against the vampire lands. Sent into enemy territory, she soon realizes that things are more complicated than she thought, as she herself is tempted with the Covenants promise of eternal life. She is joined by the sorceress Anuit, driven from her home when the might of the Covenant converts her town. The unlikely couples journey into infected lands rekindles the quest to find the living incarnation of the Gold Dragon, which will lead them to unlock the greatest secrets of the gods themselves. Meanwhile, the vampire queen hunts for the druid Aradma, who has withdrawn from the world to raise her daughter. The light elf must join with the paladin and sorceress in order to cleanse the lands of the vampire contagion and prevent the Goddess of Desire from consuming the world.
