

## Creating Success At Home: Your Guide to Redefining Home, Conquering Clutter, Taking Back Time, Boosting Your Energy and Overcoming Decorating Fears

What if you could not only have a home you love, but that loves you back? As an home decor and lifestyle blogger, Sharon Hines has discovered several common obstacles to creating a home you love: the wrong mindset, cluttered spaces, not enough time, low energy and fear of decorating. Creating Success At Home is the answer to those obstacles. Creating Success At Home is divided into 5 parts, each one containing short, easy-to-read chapters that delve into each problem area providing practical solutions and resources including a printable tool kit that includes a daily routine chart, a cleaning chart, a set of cleaning recipe cards, sorting labels and a decluttering cheat sheet. But Creating Success At Home is more than book full of tips. It includes relatable stories that will have you either laughing, crying or saying, me too! This book is the authors way of coming alongside you to mentor and encourage you on the journey to creating success at home.
