

Seven Splinters

Tuuli Jacobsson has always struggled with her identity in her seemingly all too normal life. But when her eyes start to glow on her eighteenth birthday, she realizes just how far beyond normal she really is. While trying to hide her growing oddities from her parents and her pesky sister, Tuuli meets an intriguing and alluring stranger, Alvar Gunnaron, who somehow knows her better than she knows herself. Refuting her feelings for Alvar, she follows him into an ancient realm on the brink of extinction only to be hunted by a Lord determined to take her for his mate. With her soul calling her to her true race and her mind clinging to her humanness, Tuuli finds herself torn between two races that are equally a part of her whole. In this journey of discovery and transformation, Tuuli must accept herself to win the battle to save her people before they are destroyed.
