

Fables and Fantasies: A 5 Story Collection

This collection of five different tales gives some new takes on old stories, and is a mix of fear, fun, and fantastic elements. Some of these stories are humorous, some are scary, some end well, some badly, and some have mixed blessings for those involved. Kind of like life. Fable and fantasy blend to make a journey into other lands and times and magics. Its like following a familiar road, only to discover a new, unusual side path that takes you to an alternate destination. Here are new worlds to explore, with magic, swords, vampires, princesses in peril, and choices to be made. Heroes and villains and something in between. Monsters, both internal and external. Encounters with the unusual to make you think, laugh, and shiver with fright.
