

Facts: Faith, Attraction, Communication, Trust, Sex in a Professional Sports Marriage

In light of current NFL news stories, Renetta and Dante Wesley's book is a must read for married couples, anyone in relationship, and anyone seeking to understand a celebrity relationship. It not only paints a very honest picture from the inside of a professional sports marriage, it provides strategies for overcoming the difficulties that can arise in such relationships. The glory and luxury of marrying a professional has its ups and downs, rarely discussed until NOW! Dante, an NFL player for 9 years, nearly allowed alcohol, sex, and his birth family ruin a great marriage. But he found a way to turn his marriage and his life around. Dante's wife, Renetta, is an example of a woman who chose to pray rather than get even. Her faith in her husband and her conversations with God changed both their lives. Read this book to understand their journey together. It will change your life as well.
