

## Turbulent Rain

Turbulent Rain by Cheyenne Meadows  
When the heart longs for one more  
Daughter of the Horizon Pack alpha, Rain is ordered to find a mate immediately or else. Desperate, she takes off and literally runs into alpha wolf shifter Jet and his beta mate Garrett from a rival wolf shifter pack. Hearing her predicament and having met her once before, Jet step ups to help, promising to mate her and save her from an unknown fate. Jets actions set into motion a series of brutal events and leave Garrett questioning himself and his relationship, as he looks to Rain with a skeptical eye, unable to understand Jets blindness to the womans underlying deviousness. Out to expose Rain for the fraud she is, Garrett strives to find proof she carries the blame for murders along the pack borders which puts the groups on the brink of outright war. Jet works to keep peace in his household and between their packs, convince Garrett that Rains innocent, as well as keep his hands off the beautiful woman who makes his inner wolf growl with need. Until Garrett and Rain open their eyes to the truth, he knows theyll never become the matehood nature intended, as a bonded threesome. Can they come together as bonded mates in time to help save their packs? Will Garrett be able to finally see the truth about Rain before its too late? Cheyenne Meadows  
About the Author: Growing up in the Midwest, I began reading romance novels in high school, immediately falling in love with the genre, to the point where I decided to write professionally for a career. However, that dream splattered against a brick wall, resulting in a quick death in my first writing class in college when my professor told me bluntly that I wasnt any good at it. I shifted gears quickly, and left my writing dreams behind, eventually settling on becoming a nurse. A few years back, I stumbled across a fan-fiction writing site on a favorite authors webpage. I began to

read stories others wrote, not only making some wonderful close friends from the experience, but also, really learning to write for the very first time. Here I was able to share short stories, practice my writing skills, and truly develop into a writer. More than that, the experience allowed me to revitalize my dream, as I rediscovered joy in writing. Now, I spend my days off with my alpha male characters, quick witted heroines, and see how much trouble everyone can get into. When I'm not working or writing, I enjoy working in the garden, canning, and seeing my backyard as a living canvas for my whimsical landscaping, and, of course, reading romance novels.
