

CONFED: 2721: Xenocide War

Author Bio:Mr. Moore was born under the sign of Taurus in a small very rural Connecticut town. Growing up he spent the majority of his childhood years wandering the hills and valleys of north eastern Connecticut, a solitary explorer. After a less than spectacular academic career Mr. Moore graduated from high school and joined the Army. Enlisting with a contract to be trained as a medic Mr. Moore turned down OCS because he would have to waive medic training. After the Army and a tour in Viet Nam Mr. Moore graduated from college with a BA in Biology and then attended a Physician Assistant program. An avid Sci-Fi fan and amateur futurist Mr. Moore continues to monitor scientific research for indicators of future technologies. This first book takes some of that science and places it in a future where mankind has not changed substantially.
