

BIO-Sapien Book 3 - Human Metamorphosis: Human Metamorphosis (Rebirth series) (Volume 1)

Book 3 starts off with Jaden returning to Earth in his upgraded EIS, eighteen years later by earth time. His bio-engineered body is slowly evolving into superhuman levels. His mission is to help scientist locate the Nanomole in humans and then deactivate it, before the Darclonian mothership enters broadcast range. When a Nanomole is activated and is in the correct stage, it can control a human body. It would need to synchronize with a Bio-parasite for a permanent takeover of the human mind (Bio-parasites are Darclonians in microbe form). Love and romance follows the chapters as the silent attack on humans begins.
