

ONE in the SAME

Anastasia Dominguez has been dealing with an identity crisis for most of her human existence. She realizes she's different from other mortal beings. In her quest to find out what and who she is, she comes to the conclusion that she's a cloned being. Her focus has shifted, searching for the person that cloned her. Memories of her tragic accident are still clear in the minds of Rachel and Brandon, who were Alicias two best friends. Coincidentally, they ran into Anastasia. For both of them it was like seeing a ghost. She could have been Alicias identical twin, looking exactly the way they remembered her. Who was this Anastasia? Dr. Clyde Jenkins knew he shouldn't have done it, but he thought he could give back a life to replace the one he took away. The only way to protect Anastasia, was give her up. Twenty years later he's faced with a choice, expose himself and face life-imprisonment for illegal use of cloning technology, or let his daughter go to jail for something she swears she was falsely accused of.
