

The Done Deal

The Done Deal features the Susan James Method of Manifestation. Affecting The Probability of Possibilities Closing The Gap Between Desire and Fulfillment Those desires that we have, some that seem elusive, but still calling us, will only be accomplished through higher study and personal development. The Done Deal provides energetic shortcuts for those who feel led to them. Maybe you are one? Susan James (From the Two Sides of Wanting..chapter) Having All That We Desire Fulfilled, is much easier than all that we currently understand, and which is written about ad nauseum, in many books. Meaning it has nothing to do with performing actions/activity so that this and that happens. Meaning, performing some activity, even focused thought energy or at least as we currently understand how to focus thought energy has little or nothing to do in relation to manifesting what we want as it would relate the next level of discovery. We can't feel the essence of what we truly want, if we aren't making the effort to expand from the lower density that hides it from us. (sj) It's not that we don't believe we can have it, it's that we don't understand how we really can have it. We don't know how it works; we don't even understand that if we knew how it really worked then we could have whatever we want. But we don't have any idea. Some of us don't even know the option exists.
