

Seven days. That's all it took for Macy to go from a scientist who conducted hybrid research for a secret government agency to the face of an even more secret agency designed to protect hybrids. Now she must locate an endangered Adam, placate a demanding president, manage the national security team, and research the evolving abilities of the nanobots. This while discovering her true parentage and wondering which of her family members she can trust and which are the real traitors. Just another day in the life of Dr. Macy Greer- scientist and hybrid extraordinaire.
