

Nigh - Book 1

A disappearing watch. A thief in the night. Whispers around every corner... Then a mist rolls into town and refuses to dissipate. Alva Viola Taverner has lived in her small town all of her life, working as a car tech while saving for her little sister to go to university. But everything is about to change as the veil between our world and the world of the faeries weakens and falls. Suddenly, even the smallest bump in the night can prove the deadliest. **This is the first installment of a serialized novel
