

## Study in Consciousness: A Contribution to the Science of Psychology (Classic Reprint)

Excerpt from Study in Consciousness: A Contribution to the Science of Psychology  
This book is intended as an aid to students in their study of the growth and development of consciousness, offering hints and suggestions which may prove serviceable to them. It does not pretend to be a complete exposition, but rather, as its sub-title states. A contribution to the science of Psychology. Far ampler materials than are within my reach are necessary for any complete exposition of the far-reaching science which deals with the unfolding of consciousness. These materials are slowly accumulating in the hands of earnest and painstaking students, but no effort has yet been made to arrange and systematise them into a co-ordinated whole. In this little volume I have only arranged a small part of this material, in the hope that it may be useful now to. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
