

Rebellion: The Criminogenic Trilogy, Book 3

At least I made it out alive, right? - Peter Ronin With tension rising between the policed State and the citizens, a band of unlikely heroes rise from obscurity to overthrow the system. Armed with little more than underground technology and sheer determination, the Foresworn work tirelessly to bring about change. With whispers of anarchy electrifying the air and leaders being brought to their knees, it is the perfect opportunity for the Regions to return to the utopia that it once was. With the help of inside information and the unwavering will of the rebels, is a change possible? Will the power blinded D.A.E Director, Jonathan Phelps be able to maintain order within his region or are his rash decisions going to come back to haunt him?
