

Flight (Henge Betrayed)

We've been betrayed. Those words spoken by the Dom and Doma of the Wesren henge awaken their four children—two sets of male-female twins. Each child has an affinity for one of the four elements—earth, air, fire and earth. In secret, the young teens flee their home to seek a place of safety and teachers to hone their control. They use their emerging talents in ways they never imagined. Will their quest succeed or will they become pawns of He Who Walks In Darkness?
