

Unnatural

Nicolai Francis is a 138 year old man locked in time by an evil force he innocently unleashed on himself. Unable to age, he lives two separate lives. One private and the other public. A wealthy industrialist who is never seen and an executive assistant maintaining a very haunted castle built in the middle of the New York sound. Forced to endure one love affair after another, always ending in tragedy, Nick finds a way to redeem himself, find true love and rid himself of the curse and creature within him.
