

K is for Kitty (Interstellar Repairs and Towing Book 3)

K is for Kitty is something slightly unusual for a hard science SF novel -- it is a cozy mystery. On the interstellar traveling garage and tow ship Scrap, travels last for months and years. The crews have to bring their families along on their journeys or live away from them for years. But when the ships children grow up they sometimes want to try the more stationary and sedate life on one of the planets in the Terran/Ricky Commonwealth. Captain Finns daughter has lived her whole life Scrap. She loves her home but wants, like all children, to explore beyond the steel/ceramic walls of her home and into the larger universe outside. She decides to take a few graduate college courses on Mars and get an advanced degree. She thought it would be a relaxing break from the dangerous work of repairing equipment across the fringes of the Commonwealth. Instead of the typical coed worries about school work and college partying, she stumbles across a dead body and becomes involved in solving the murder. There is a problem. Criminals dont want to be caught and they become dangerous when cornered. To her surprise, she discovers that the more she tries to escape the overpowering presence of her famous and close knit family the more she is her parents daughter. The criminals on Mars dont know what they have unleashed when they accidently cross paths with a master mechanic and engineers daughter. K is for Kitty is a true cozy amateur detective mystery that is set in the science fiction worlds of the Terran/Ricky Commonwealth.
